## WATSON'S GROCERY

### CONGRESS MINE REPORTED CLOSED

News comes by way of Prescott that the famous Congress mine, in southwestern Yavapai county, Ariz., has been closed down. This mine has been a prolific producer for years past and nothing is being done on the famous property except cleaning up work, and the handling of some tailings through the cyanide plant.

Whether the suspension of operations is more than temporary, the management has not told.

The Santa Fe, Prescott and Phoenix railroad was built primarily to tap the Congress mine, then owned by Diamond Joe Reynolds of St. Louis. For years the property has been one of

the largest gold producers of Arizona. Its surface equipment includes two fine concentrating mills, an unusually well equipped cyanide plant, with oil roasters. Underground the workings are the deepest in the southwest, with half a dozen shafts that follow the slight dip of the Congress and Niagara veins. The former had the greater development, as its ore has been some what richer across a two to four foot vein, averaging \$20 a ton gold for years of mill run. In character it was iron pyrites, concentrating about eight to one. The Niagara ores had a larger percentage of silver.

### FIRST UNIT STARTS IN BIG MIAMI MILL

Globe Oil Promoters Meet to Plan Development at Bowie.

Globe, Ariz., March 20.—The first unit of the Miami Copper company's mill has been put into operation and is giving complete satisfaction. It is expected that the mill will be running to capacity shortly, as the initial run has demonstrated that it is in thorough shape. Other units are to be started from day to day and within a week the entire mill will probably be running.

A meeting of the Globe men who are interested in oil claims in the Bowie field are holding a meeting in Safford today to arrange for incorporating the holdings. The report of Harry Temple, delegate of the oil men to the meeting held at Bisbee, will be acted upon today. The Bowie field is to be extensively developed.

Frank Ferrari, an employee of the Old Dominion Copper company, while at work on the fourteenth level, slipped and fell down a shaft a distance of 60 feet. He was but slightly hurt, receiving only a few bruises in the fall.

### STRIKE ALUM AND GOLD AT CAP ROCK

Tucson, N. M., March 21.—A. E. Dunsmuir, who lives near Barancas at the edge of the Cap Rock southeast of here, reports the finding of a 12 foot ledge of rock showing almost solid alum, with pockets of coal. The ledge grows larger as it leads into the hills and it will be investigated by a party of men from this city to discover whether or not there is any permanent value.

At Grady, further west, James Hibbert reports that solid gold nuggets of small size are being taken from a shaft 50 feet deep which is sinking. Several small finds of various minerals have been made in the southern and eastern portion of this county and the residents are hopeful of some day making a valuable discovery.

### STATEHOOD CO. RUNS CUSTOM ORE IN MILL

Makdalen, N. M., March 20.—The Statehood Mines company is to run custom ore through its electric 30 stamp mill. Fifty tons from the through for J. McPherson, who is assembling the mine to be treated. The mill is also receiving ore from the Statehood company's Snake mine, and is running continuously. Continued development is carried on by the Sigma Construction and Development company in the Wick vein. A new five horsepower triplex pump is being installed.

Hiltcher brothers are assembling five dry washers for operating their large holdings on the old placers of Mesa del Oro. It is thought these will be in operation within two months.

### DODGE WELL PLEADED WITH MINING OUTLOOK

Silver City, N. M., March 20.—Cleveland Dodge, head of the Phelps-Dodge corporation, with his party, visited Silver City during the past week.

Mr. Dodge, Mr. Mills and others of the party, were taken out to Leopold in autos, where they inspected the mines of the Burro Mountain Copper company, owned by the Phelps-Dodge people.

Mr. Dodge expressed himself as highly pleased with the results of his inspection trip to the various Phelps-Dodge interests in the southwest and was optimistic as to the future industrial outlook, not only of this sec-

tion, but of the entire country. Mr. Dodge was accompanied by Mrs. Dodge, two daughters and Miss Scudder, of New York.

### RIO TINTO COMPANY TO BE INCORPORATED

Tombstone, Ariz., March 20.—Articles of incorporation have been filed in the office of the county recorder by the Arizona Rio Tinto Mining company, by John A. Duncan, L. Grant Duncan, George E. Stille and John McClellan. The company is capitalized at \$5,000,000, divided into shares of \$5 each. The principal place of business is San Simon, Ariz.

### GETTING GOOD ORE FROM TEXAS-ARIZONA PROPERTY

The continuation of the ore shoot on the property of the Texas-Arizona Mining company, at Dragon, Ariz., has been found, and a body of high grade ore has been located. This is about ready for the smelter. There is a large amount of low grade ore in the old workings. Near the Texas-Arizona the Centurian has reached the sixth level with ore all the way for the last 500 feet in an ore shoot which leads down to the main ore body at an unknown depth.

### DEAL SAID TO BE ON FOR PICACHO MINE IN SONORA

It is stated that engineers are now making an examination of the Picacho mine, Sonora, Mex., owned by Phelps Dodge & Co. at the instigation of James Martin, of Los Angeles, formerly manager of the property, with a view to sale. The ore is high grade and the Phelps-Dodge interests formerly shipped many car loads of ore which netted \$20,000 to \$10,000 a car. This high grade ore ran out and for the development of the low grade bodies R. K. Glancy purchased the property, paying \$100,000 before he relinquished the mine, allowing it to revert to Phelps-Dodge people.

### FORTY MEN EMPLOYED AT ARIZONA-NEVADA CO. MINE

At the works of the Arizona-Nevada Copper company, in Eureka district in Arizona, 40 men are employed in drilling operations and it is reported that in about 60 days the mine will be increased. This was determined for the reason that four more churn drills are en route from the coast and the greatest system of exploiting the mine is being developed.

When you have rheumatism in your foot or instep apply Chamberlain's Liniment and you will get quick relief. It costs but a quarter. Why suffer? For sale by all dealers.

**Unusually Eruption ON FACE AND HEAD**

Afflicted for Months—Burned and Itched—Used Cuticura and He was Cured in Three Weeks—Not Even a Scar Left.

"As a grateful mother, I feel it my duty to thank you for the cure of my little son who was afflicted for months with a very bad skin disease. He was covered with sores all over his head, back of his neck and nearly all his face. We tried all kinds of remedies without any relief. We even employed a good physician and I am sure he tried his very best to cure my poor suffering little boy. But, alas! instead of getting better he went for the worse. His head was literally covered with scabs and he cries kept him awake throughout the long night. I had to keep his hands in gloves to prevent his scratching his head, as he was doubtless suffering from burning and itching sensation, and was constantly trying to put his hands where it hurt. At last when he was about three years old, we saw an advertisement of Cuticura and I decided to try the virtues of the Cuticura Remedies. I bought one cake of Cuticura Soap, a box of Cuticura Ointment and a bottle of Cuticura Resolvent. I used them according to directions and I am happy to say that my little sufferer was cured in less than three weeks. This was over a year ago and now his head is covered with a fine growth of luxuriant hair. Strange to say, all those unsightly sores did not even leave a scar. Mrs. J. O. Conillon, Plaquemine, La., February 26, 1910."

The suffering which Cuticura Soap and Cuticura Ointment have alleviated among skin-afflicted, distressed children and adults have led to their adoption in countless homes as the purest, sweetest and most economical treatment for eczema and other itching, burning humors of the skin and scalp. A single set is often sufficient.

### Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescription from a reputable physician, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. Sold by Druggists. Price, 75c per bottle.

## HANDICAP RACE IS JOCKEY'S VICTORY

Enfield Wins Because Well Ridden by Jockey Ted Rice.

Equally matched in the handicap, Enfield beat Napa Nick because he was better ridden by Ted Rice, the top liner at Terraza park. Napa Nick was ridden by Denny, who failed to bring out the best the Parker entry had and Napa Nick was stopping at the end. Enfield followed Nick to the stretch and then started to race him into the ground. Napa Nick looked good to put up a finish fight, but was handled like an apprentice and failed to make the expected showing. Marjorie A. was outrun all the way, took the turns wide and was beaten by three lengths by Napa Nick.

The stable of R. J. McKensie, the Canadian horseman, was loaded and will be shipped east. Eddie Taplin, the McKensie stable rider, accompanied the stable.

**FIRST GAME OF SEASON AT BISBEE**

Talk of Forming Cozy Corner League This Spring.

Bisbee, Ariz., March 21.—Bisbee bested Douglas at the Warren ball park by a score of 9 to 0, after a very uninteresting game. This was the first game of the season and resulted in such a strong showing for the local team that the fans of the district are greatly encouraged. It is thought probable that the Cozy Corner league, comprised of Bisbee, Douglas, Cananea and Tucson will be formed. Only a few professionals will be on each team, most of the players being amateurs.

**SPORT WRITERS SAY IT WAS NOT A FIGHT**

Los Angeles, Cal., March 21.—That the Wolgast-Memisc bout last Saturday which resulted in the arrest of the principals on a charge of violating the anti-prize fight law was a "prize fight" and not a "prize fight" was the consensus of opinion of Los Angeles sporting writers in the testimony given by them in the preliminary hearing of the pugilists.

The newspaper men had been called by the district attorney. Each of the sporting writers gave his version of the affair. They were agreed that a "prize fight" must be to a finish. The hearing was continued to Wednesday. The two pugilists were in court, Wolgast unmarked, while Memisc's right eye was still partly closed.

**"KID" MCCOY MAKES POOR SHOW IN BOUT**

Philadelphia, Pa., March 21.—"Kid" McCoy gave a miserable exhibition in his six round bout with Jack Fitzgerald here last night. Fitzgerald is a preliminary fighter and the best McCoy could do was to get a shade the better of the bout. The fighters clinched almost continuously and were hissed repeatedly.

**COLLEGE BOYS LOSE TO BOSTON AMERICAN SECONDS**

San Jose, Cal., March 21.—The errors of the Santa Clara college players gave yesterday's game to the Boston American second team.

**DISCUSS PLANS FOR BIG CONCRETE BALL GRANDSTAND**

Washington, D. C., March 21.—The board of directors of the Washington baseball club and Pan B. Johnson, president of the American league, met here today and discussed plans for the grandstand, which will be of concrete and steel and will accommodate 15,000 persons.

### TO BEGIN OUTDOOR ATHLETICS MONDAY

The outdoor athletic season of the Y. M. C. A. will open Monday. All the members who will take part in the federation athletic meet during the latter part of May will start training the first of next week. An effort is being made by the athletic directors at the local association to secure training grounds for the men who intend to work out for the meet.

The Y. M. C. A. tennis club will be revived again this year. This sport has always been one of the most popular with the boys and a tournament will be arranged between the various teams which will be organized.

**GOTCH THROWS BEELL TWICE IN FINISH MATCH**  
Wichita, Kas., March 21.—Frank Gotch, world's champion wrestler, threw Fred Beell of Wisconsin, twice last night in a good finish match here. The first fall was secured in 29 minutes 2 seconds, with a crotch and a reverse Nelson. The second was gained in 15 minutes by means of a neck and leg hold.

**OAKHURST WINS FEATURE: TWO HORSES TAKE TUMBLE**  
Jacksonville, Fla., March 21.—The feature in the races at Moncrief was a handicap at one mile and went to Oakhurst, well ridden by young Byrre. Spindle fell and Descomets stumbled over him, both horses and jockeys falling heavily to the ground.

**TWO FAVORITES LAND.**  
Tampa, Fla., March 21.—Only two favorites were successful at the West Tampa track, much to the detriment of the form players. Blue Tie, the favorite in the third race, proved much the best of her field.

**IS EASY FOR PACKY.**  
Oswego, N. Y., March 21.—Packy McFarland of Chicago scored an easy

victory over Billy Ryan of Syracuse last night. Ryan was saved from a knockout in the fourth when his seconds threw a sponge into the ring.

**POLE WINS AGAIN.**  
Buffalo, N. Y., March 21.—Zybyzko, the Polish wrestler, last night defeated Paul Schmidt, the Capetown giant, here. The Pole gained two falls, the first in 32:50 and the second in 10:31.

**FIRST CATTLE FOR A MONTH FROM MEXICO.**  
The first car of cattle to be received in a month by the custom house from Mexico, arrived Monday and was inspected at the stock yards. The cattle was a part of a shipment from the Ascarate ranch in Chihuahua. Since the railroads were put out of commission no cattle have been received through this port.

**THE TALE OF A PAIL.**  
The big problem of manufacturers of food products has been to devise a package for their products which will insure the housewife getting them sweet fresh, without deterioration.

In this connection a very ingenious package has been invented for the protection of Cottole. The pails in which this cooking fat is packed (it is never sold in bulk) have a special cover forced on by machinery and then sealed. This makes the pail absolutely air-tight, and Cottole will keep indefinitely as fresh and as sweet as the day it was made.
